LumOS: Where Speed Meets Simplicity

SPECTRA

The world's most respected institutions turn to Spectra LumOS software to **enhance tape library management**. Here, three recent adopters of LumOS share their experiences and insights.

"LumOS supports Pawsey's goals of **improved efficiency, security, modern interfaces, and simplicity**. Fewer parts to operate and maintain means we can improve the reliability of our system's service for research data."

"LumOS has helped CC-IN2P3 modernize tape library management. Now, when I need to collect logs, **it takes a few seconds instead of 20 minutes** — and I no longer need to plug in a USB in the library room to do so."

"**LumOS is almost instantaneous.** It's saving me hours on tasks that used to take a full day to complete. With LumOS, I can monitor my tape library in a realistic time scale."
